## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-3 and 9-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Brady (US 2004/0240278).

With regard to claims 1-3 and 9-11, Brady discloses in Figure 7 an analog to digital converter that comprises a plurality of comparators (725-740). Each comparator compares an input electrical signal (Vin)(721) with a respective pre-selected reference circuit that generates a reference signals (705-720). An encoder (not shown) coupled to the comparator to receive a detection signal (D1-Dn) from each comparator indicative of the input signal. The voltage of the nodes to be compared to the input electrical signal is individually programmed, a pre-selected voltage (745).

### ***Allowable Subject Matter***

3. Claims 4-8 and 13-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Art Unit: 2819

4. Applicant's arguments, see remarks, filed 2/6/2006, with respect to the rejection(s) of claim(s) 1-3 and 4-9 under Kressin et al. have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Brady et al. (US 2004/0240278).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peguy JeanPierre whose telephone number is (571) 272-1803/272-1803. The examiner fax phone number is (571) 273-1803.
